Get an API -https://api.getpostman.com/apis/{apiId} does not return the schema/content in the response. #11381

New issue

Closed

AkaramAli opened on Oct 21, 2022 - edited by AkaramAli

Is there an existing issue for this?

- [x] I have searched the tracker for existing similar issues and I know that duplicates will be closed

Describe the Issue

After upgrade to postman-v10
GET Get an API -https://api.getpostman.com/apis/{apiId} does not return the schema/content in the response .However in the documentation it still mentioned that we should get schema object as part of api response .

How to get the schema /content for an api now ?

Steps To Reproduce

Create an API under APIs in postman web .
Invoke https://api.getpostman.com/apis/{apiId} with the above created apiId and validate the response , **response does not return the schema object anymore .**

Screenshots or Videos

As per documentation , we should get below response.

```
{

}
```

Under "versions" we don't have "schemas" anymore .
How to get the schemas /content for an api now ?

diyaeninan on Oct 25, 2022

@AkaramAli, thank you for reporting this. We are looking into this and will update this issue with any further updates

Meanwhile, as a workaround, could you please try using the `Get a Schema` endpoint by additionally replacing the `schemaId` with the `id` of the relation of type `apiDefinition` from the `relations` object?

Documentation: https://www.postman.com/postman/workspace/postman-public-workspace/request/12959542-9b885f7a-8f6f-4b9b-a75f-be79a1501567

@diyaeninan , Thank you for providing above workaround . It Works !

However , I would like to know , going forward (Postman v10 onwards) we need to additionally call `Get a schema` API to fetch the schema ?
or
Can we expect a fix for this issue ?

diyaeninan added bug and removed staff/pending on Oct 27, 2022

diyaeninan on Oct 27, 2022

@AkaramAli Thanks for confirming! We will be working on a fix for this issue.

@AkaramAli Firstly, thanks a lot for reporting this issue and making an effort to help us make Postman better

We've fixed this issue from our end and your flows should start working as they were, without the temporary work-around mentioned above. Please do let us know if you still face issues!

SaloniV3011 on Nov 21, 2022

Hi @AkaramAli
Closing this issue due to inactivity. We have released the required fixes.
Do let us know if you are still facing this issue.
Thanks again for reporting this!

Thank you so much @harshit-budhraja for fixing this issue !
I will test this with the latest release .In case of any issues , I will log a new ticket .
This issue can be closed .

Thanks Everyone !
